

TELECOM WEB APPLICATION

*Project done by
Subhajit Manna*

Acknowledgement

I have taken efforts in this project. However, it would not have been possible without the support and help of our organisation STL Digital and our mentors. I would like to extend my sincere thanks to all of them.

I am highly indebted to Project Mentor Piyush Singh, Supriya Ankolekar for their guidance and constant supervision as well as for providing necessary information regarding the project & also for their support in completing the project.

My thanks and appreciations also go to my colleague in developing the project and willingly helping me out with their abilities.

Tools Used

- 1. Frontend using - Angular**
- 2. Backend using – Java Springboot**
